

NLP Practitioner Certification

7 Day 4-in-1 Fast Track Course

I cannot think of another training I have attended which has given me as much learning, not only professionally but personally as well. I warmly recommend Neil and his NLP training and albeit the challenge nowadays to attend a 7 days training, it is well worth the time.

Gerard Belicha, CEO of Red Packet and Publisher of Equestrio China

Without overstating it, this NLP practitioner course has been a life changing experience. Amazing and meaningful theories clearly explained with plenty of practical exercises and role plays. Those 7 days undoubtedly taught me more than 5 years of university and MBA.

Raphael Sachs, TIA Limited, Executive VP

"One of the most interesting, involved and enjoyable course I have been on. If only I had Neil as my teacher during college, I would have retired by now! What I learned has and will continue to have positive impact on me. Neil was inspiring and committed throughout the course - a thoroughly fun learning experience."

Atul Khanna, CFO

Why Should I become an NLP Practitioner?

NLP is the most practical, results oriented technology available for detecting, understanding and taking control of our conscious and unconscious thinking. A certified NLP practitioner is recognized globally as someone who has learned the principles, techniques and applications of NLP as they are intended to be used for themselves, and as a coach for others. Becoming an NLP practitioner is, for many people, the beginning of a life changing process resulting in more independence and clarity of thought often leading to much wanted career changes.

What you do with your new skills as an NLP Practitioner is up to you, however the options that will be introduced to you as you learn NLP and start to remodel your thought processes will make whatever you're ambitions may be become more attainable than ever before. After qualifying as an NLP Practitioner, you will be able to use the NLP applications you have learned in:

- All modes of Business including Management, Sales and Negotiations
- Business and Personal Coaching
- Therapy and Relationship Coaching
- Creating change and growth on a personal level

What Certifications will I receive?

The 7 Day Fast Track NLP Practitioner Course is a 4 in 1 training which includes three other certifications in addition to the NLP Practitioner Certification; Time Line Therapy Practitioner™, Hypnotherapy Practitioner, and NLP Coach Certification. This course is limited to 12 people, so that you receive sufficient personal assistance from the trainer and learn in a supportive and fun environment.

All certificates issued by Evolution-U are fully approved and recognized by the respective bodies¹ being; the American Board of NLP (ABNLP), The Time Line Therapy™ Association (TLTA), and the American Board of Hypnotherapy (ABH). This means that no matter where you go in the world, your certificate will be recognized by the appropriate associations. Please note that there is no specific section of the training dedicated to the teaching of NLP Coaching techniques. The NLP Coaching certification is an additional certification offered as a result of having completed NLP Practitioner and Time Line Therapy since many of the techniques taught in these trainings are relevant to coaching. We make many references to how these techniques can assist in coaching, but do not separately teach coaching due to time constraints.

Can I choose to take only the NLP Practitioner Certification?

Yes. In this case you would not attend the final two days of the course and would only be issued with one certificate as an ABNLP certified NLP Practitioner.

¹ Certification fees charged by each body are not included in the course fee.

"The NLP Practitioner course with Neil provided the very applicable and useful skills of NLP to all areas of life including career, personal and self skills. The way Neil conducted the course was the key contributor to the group adapting, remembering and benefiting from the techniques. A highly recommended for future personal and career development.

Felicia Cheung, Senior Account Manager, Telstra International

I have to say that I was quite sceptical about NLP and after listening to various audio files however it all came together in the course and I credit that to Neil and the way he conducted the sessions. What I particularly enjoyed (and found most useful) were the parts about hypnotic language, the hierarchy of ideas, and the elicitation of strategies.

Oliver Hoffmann, Managing Director & Chief Executive, UniCredit Bank AG Hong Kong Branch

Neil's courses in NLP and Time Line Therapy® had a profound impact on my professional and personal life. Neil's expertise in the subject, his teaching style and the way in which he fostered communication among training participants helped me to understand the materials much faster and deeper than otherwise possible.

Marco G, Business Owner, China

How will I benefit from being an NLP Practitioner?

The skills taught during the NLP Practitioner Training are invaluable in business and are widely applied in sales, training, meetings, presentations, negotiations and management. By mastering NLP techniques, you will accelerate your ability to succeed in your goals and achieve your targets in life. As a result of increased awareness and understanding of language, your effectiveness in working with others will significantly increase as will your ability to help those around you in realising their potential.

What is covered in the Course?

The primary modules that contribute towards the NLP Practitioner Certification include:

THE FOUNDATIONS OF NLP

The NLP Communication Model - How to set your own Goals and help others set theirs - Presuppositions of NLP - Prime Directives of the Unconscious Mind
